

Session Notes — Cash and bank accounts (phase 1)

Shift Hub Accounting · D:\vscode\todo · 2026-09-05 · commit 0c338b1, deployed to hub.shift-group.co

What was built

- **Accounts page** (/accounting/accounts , the old Whish page generalised). A “+” creates a cash or bank account: name, type, currency, owner, Odoo journals, opening balance, optional HomeBudget history. Same grid, same partner/company/analytic pickers, same rules engine and Odoo matcher. The Whish account is listed with the others and behaves as before (statements, contacts, rules, Book).
- **Odoo import**: every line of the account’s Odoo journals lands in the grid with partner, company, the bill it settles and the project — as Odoo facts (purple), not suggestions. “Paid by X” is read from attachment names and memos and flagged  when X is not the account owner.
- **HomeBudget import**: the history of a HomeBudget account comes in; a row that repeats an Odoo line (same amount, within 3 days) is linked and struck through, so it is not counted twice.
- **Balance** of non-statement accounts is pinned to the opening row: the balance right before the opening date equals the opening amount; earlier lines show the implied history.
- **Cash extras**: “Paid by” column, typed lines (+ Line), edit/delete of typed lines, count / do-not-count toggle (⊙).
- **Transfers** (/accounting/transfers): one record = OUT line on the source + IN line on the destination, never income or expense. “↔” on any grid line makes that line one side of a transfer (Whish top-ups, Odoo entries); the other account gets the counter-line. List view with edit and delete.

Accounts created (production)

Account	Type	Sources	Lines	Notes
Mario cash	cash	Odoo journals 87 (S LB), 21 (SARL), 146 (S DEV) + HomeBudget “cash \$ lap mario”	1,282 + 1,293	10 Odoo lines flagged paid by someone else; 50 HomeBudget rows linked to Odoo lines
Neo Mario	bank	Odoo journals 170 (SARL), 174 (S DEV), 182 (S LB)	9	CSV statement import still to build
Neo Therese	bank	Odoo journals 169 (SARL), 173 (S DEV), 183 (S LB)	7	idem
Whish · MARIO SALIBA	bank	statements (unchanged)	442	closing 2,685.59 as before

To confirm: Mario cash opens at **9,886.21 on 2026-09-05** — HomeBudget’s balance at the close of 4/9/2026, after the 11,354 write-off typed that day. Count the wallet and correct it with ⊙ on the account.

Side task — Astro and Solaris invoices

Line	Document found	Where
------	----------------	-------

Astro draft 4447 · \$133 · 11 Jun	Invoice AS 003483 (11/06/26, cables, 119.82 + 11% VAT)	Downloaded from WhatsApp; filed in SARL 2026 q2 bills as "20260611 astro 133\$ ttc cables (paid by mario whish) - draft 4447.pdf". Not yet attached to the Odoo draft.
Astro draft 4446 · \$358 · 24 Apr	"Shift Group Inv# 3161.pdf", sent by Astro on 24 Apr 2026	Only on the phone — WhatsApp Web does not hold April history and the archive's media folder is not on disk. Forward it from the phone or ask Astro.
Solaris · \$116.15 · 28 Jul	Receipt RC-009177 \$115.00 for invoice SI-010230 (15 Jul) + 1.15 fee	On the Solaris statement of account (filed in solaris bills).
Solaris · \$695.13 · 21 Aug	Receipt RC-010691 \$688.00 = SI- 011337 \$678 (6 panels 645 W) + SI- 011341 \$10 (clamps) + 7.13 fee	Receipt and statement downloaded and filed in "00. PARTNER\solaris\solaris bills".

Open next

- Phase 2: Georges, Abed, Khodr, Ziad, Mitri cash accounts — match Excel + WhatsApp accounting groups + Odoo, import only what is missing.
- Telegram capture (cash_add on @MarioOdoo_bot), Neo CSV import, cash + gold dashboard, a "Count" button.
- Budget page still lists only the Whish account; the new accounts are not yet fed into Budget.
- Attach AS 003483 to draft 4447, set the analytic, post and pay from journal 167 (Odoo write — waiting for the go-ahead).
