

Session Notes — 4 September 2026

Shift Hub · Accounting (hub.shift-group.co) — Whish standing rules, Wise link, analytic column, bulk-accept restriction

What is live now

- **Wise linked** via Playwright (`todo/wise-pull.js`). API route is closed on personal accounts (PSD2). Imported 2025+2026: USD main 336 lines (closing 249.33), EUR 8 lines (0.00), Christa 2, USD stocks 1 — closings match wise.com. Accounts keyed by **balance id**, not currency.
- **Bulk accept restricted**: "Accept all shown" removed. A ✓N button appears only on lines with the same phone AND the same suggested partner+company; above 60 it is disabled ("filter first").
- **Odoo cell** stacks the settled invoice under the payment (narrower).
- **Analytic (Odoo) column** between Company and Note — type-to-search over the 86 live analytic accounts, refuses names Odoo does not have; reconciled lines arrive pre-filled from the invoice.
- **Standing rules** → **Odoo booking** (`todo/whish-rules.js`, panel "  Odoo bills" + a  **Book** button on each covered row). One confirm per line: bill created if missing, posted, paid from the rule's cash journal on the Whish date; matcher re-run so the cell turns ✓. Idempotent on `ref = WHISH-<txId>`.

Patrick Nacouzi — Internet Naccache 1728

Rule	phone 9613088604 · any amount out · vendor 423 Patrick Nacouzi · company 7 S LB · journal 85 Bills · account 6039 (626150 Postage, Telephone & Telecom — S LB's own) · analytic 115 Mario Naccache 1728 · no tax · paid from 184 Cash Whish Mario USD
-------------	---

Month	Bill	Payment	State
Sep 2026 \$60	BILL/2026/09/0002 (4374)	PCSH12/2026/00020	booked ✓
Aug 2026 \$60	BILL/2026/08/0006 (4375)	PCSH12/2026/00021	booked ✓
Jun 2026 \$60	draft 4376	—	press <i>Post & pay</i>
May 2026 \$60	draft 4373	—	press <i>Post & pay</i>
Jan, Feb, Mar, 31 Mar 2026 — \$65 each	—	—	press <i>Book</i> , one by one
Jul 2026 — \$55 + \$5 (split)	—	—	your call: one bill or two

Decisions and gotchas

- **Account 626150 chosen = company 10 SHIFT DEVELOPMENT** (id 8902). S LB's own is id **6039**. In Odoo the account *code* is company-dependent — read with `{allowed_company_ids:[7], company_id:7}` or it comes back `false`.
- Odoo is **19.0**: `account.payment.memo` (not `ref`). The payment memo copies the bill ref (`WHISH-...`), so the duplicate search must filter `move_type = in_invoice`.
- "Drafts only" was superseded on request: Book = create + post + pay, still one line per click, nothing automatic.
- Rule matching is to the cent; the \$60-only rule missed six real payments (\$65 period, July split) — relaxed to any amount from that number.
- An overlay styled `display:flex` beats the `hidden` attribute and swallows every click — add `[hidden]{display:none}`.
- Another Claude session was editing `wise.js` / `wise.html` / `accounting-home.html` concurrently; only own files were committed.

Files

- `D:\vscode\todo\whish-rules.js` (new), `accounting.html`, `server.js` (dispatch), `wise-pull.js`, `wise.js`, `wise.html`
- Commits: 295cd7e, 87cd32f, 457cf14, ef149be · deployed to hub.shift-group.co
- Firestore: `workspaces/team/whishRules` (rule 79xguckrqCvYjw0Z730y), `whishAccounts/20222279/tx/*.booked`

Next steps

- Open the Whish page → decide the 7 remaining Patrick lines (Post & pay ×2, Book ×5).

- Add rules for other recurring numbers (needs a small "new rule from this line" form — not built yet; today the rule was created via the API).
- Optional: delete the unused Wise read-only API token "Shift Hub accounting (read only)".
- Re-pull Wise when needed: `node wise-pull.js [--headed]` in the todo folder.
